TENDER UAE

One Information Company was established in 2016, it is registered at the Ministry of Industry and Trade and practices its activities according to the Emirati Law.

The idea of establishing the Company was crystallized in order to contribute to the local and regional specialized companies due to their increasing needs of e-services. We provide integrated solutions for the requirements of the present time through information technology, however, thriving to accelerate and ease the obtaining of information in the right time from a reliable source that can be counted on all year around.

Hence, we work behind the scenes to enable our clients from getting the bids, tenders and procurement opportunities from the Government and private sector and different international organizations in various fields on a daily and cumulative basis, in a holistic and smooth matter.

We also design, develop, host and manage websites and e-programs for companies and individuals, as well as advertising services, media and online marketing.

The Company has a good reputation and is highly professional, and was able to accomplish that within a short period of time through its work. Its good reputation was acquired through excellence of its management and different departments. The Company holds highly professional and experienced cadres that are specialized in accuracy of execution and speedy performance. They all thrive to be accomplishing, creative and inventive in all services provided by the Company, to pour their expertise and professionalism to achieve best results.

The Company thrives to maintain contact with its clients, to listen to their suggestions, and to provide constant support to them.

The background image shows a man in a dark suit standing on a rooftop, looking out over a city skyline with several skyscrapers. The scene is captured from behind him, looking towards the horizon. Two overlapping circles are superimposed on the image: a larger orange one on the left and a smaller white one on the right. The text is contained within these circles.
